Data Protection law states that, if consent is your basis for processing the child's personal data, a child under the age of 13 can't give that consent themselves and instead consent is required from a person holding 'parental responsibility'.

'Information society services' includes most internet services provided at the user's request, normally for remuneration. The GDPR emphasises that protection is particularly significant where children's personal information is used for the purposes of marketing and creating online profiles.

Parental/guardian consent is not required where the processing is related to preventative or counselling services offered directly to a child.

We are committed to working with the local authority in protecting and safeguarding children and young people in the Borough. As a consequence we intend, where relevant to do so, share information with the Multi-Agency Safeguarding Hub (MASH) which is a co-located arrangement of agencies including the local authority, Police, NHS Trusts and Probation Service integrated into a multi-agency team.

The Single Point of Access Team (SPA), which is the single point of contact for safeguarding concerns, and the MASH share information appropriately and securely on children or young people in order to take timely and appropriate actions. The teams also provide information and advice across a range of child and family services.

Where a pupil/parent/carer has been involved in an accident, an Accident/Incident Report Form will be completed which will include details of the accident including information about you. This information will be passed to the Corporate Health and Safety Team at the local authority. This information will be accessed by Sandwell MBC employees, who legally require access to this data, for purposes related to this incident, and may be shared with others to allow us to comply with our statutory duties’.

We do not share information about our pupils with anyone without consent unless the law and our policies allow us to do so.

We share pupils’ data with the Department for Education (DfE) on a statutory basis. This data sharing underpins school funding and educational attainment policy and monitoring.

The National Pupil Database (NPD)

The NPD is owned and managed by the Department for Education (DfE) and contains information about pupils in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Department. It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

We are required by law, to provide information about our pupils to the DfE as part of statutory data collections such as the school census and early years’ census. Some of this information is then stored in the NPD. The law that allows this is the Education (Information About Individual Pupils) (England) Regulations 2013.

- conducting research or analysis
- producing statistics
- providing information, advice or guidance

The Department has robust processes in place to ensure the confidentiality of our data is maintained and there are stringent controls in place regarding access and use of the data. Decisions on whether DfE releases data to third parties are subject to a strict approval process and based on a detailed assessment of:

- who is requesting the data
- the purpose for which it is required
- the level and sensitivity of data requested: and
- the arrangements in place to store and handle the data

To be granted access to pupil information, organisations must comply with strict terms and conditions covering the confidentiality and handling of the data, security arrangements and retention and use of the data.
